DISTRICT OFFICERS.

Our school law provides for the election of three directors and a clerk in every district, and makes it their duty to take the usual oath, requiring the clerk also to give bonds for the faithful discharge of his duties. Among the duties assigned to directors is, one requiring them to "employ teachers and assist them in the government of the school"; and another, that they shall "by board visit all district schools taught in their districts once each month, and make such suggestions to the teachers and schools as they may deem necessary for the progress and advancement of the latter", also, "to secure as far as possible a uniform series of school books for their districts."

These are the most important positive duties assigned them, concerning the internal affairs of their schools, and these are certainly enough for any "board" to perform in that department.

No doubt that our district organizations are legally perfected, and that the usual oaths are taken—a single school meeting is enough for this; but do the directors visit their schools "by board" once a month? Do they inquire into the condition of their schools? Do they know whether the pupils advance any from term to term, or whether they are regularly put back by every new teacher? If so, do they devise or try to devise a remedy? Do they find what pupils can advance, and what ones must be put back?

The farmer looks at every sheep in his flock, and at every animal in his stable or his pasture, and does what is best for every one. He does not treat all alike; he takes most care of the lame, the bruised, the sick and the weak. He is wise in these things, for he is unwilling to lose a single one, but he wishes to make the most of every one.

Ought we to be less particular, or careful, or wise, in watching the condition and progress of our flocks of school children? Ought not the weak, and lame, and timid, and dull, as well as the strong, and smart, and self-reliant, to have our special notice, and guidance, and help?

There is a possibility, also, that some sensitive, weak brain is overtasked or wrongly tasked in school. Teachers cannot know these special cases so well as directors know or may know them. Dr. Loryea, in his report of the various text books used in District No. 1, East Portland, makes several important suggestions, which may apply to some remarkably studious pupils, and also to those who are continually pressed to learn things memoriter, and, at the same time, to fully explain the principle of every lesson. Such pupils, and such a two-fold process of American high-pressure instruction may need the regulation or check of the careful guardians of the school. The Doctor asks: "Is not the above list of books and studies too extensive for a mental 'bill of fare,' especially, if we are aware that the youthful mind not over 16 years of age has to digest it? Allow me to call your attention to some grave errors of our modern mode of teaching. One of the most fruitful sources of mental disease is a notion, all prevalent, that the brains, 'the dome of thought, the palace of the soul,' is not over tasked, so long as the stint of mental exercise to which it is subjected, is the result of our own free will and pleasure, while we are careful and shrink from the folly of habitually cramming our children's stomachs with food, or of changing their dress incautiously, yet we will daily send them to school to work their brain beyond the point of fatigue; parents and teachers acting on the presumption that their brains are made of iron, which no conceivable amount of 'school stint' can weaken or derange. In consequence the prominent feature in the medical constitution of our times, which distinguishes it from all others, is the large proportion of insane in the Asylums of the United States.

"The cerebral labor which is ... or study, has not been determined by the results of experience, or a consideration of the laws of physiology. Here, as in everything else, *speed* is the great test of merit. We are impatient to turn the acquisitions of our children to some practical account. Lesson is piled upon lesson; the hours of study are long, and the active, irritable brain of tender youth is habitually forced to the utmost power of effort by our modern system of teaching. Recreation and rest are curtailed, being considered a loss of valuable time. This kind of an education is like an ephemeral blossom, the admiration of the beholder for a while, but alas! it forthwith perishes.

"It should be remembered that the various organs do not arrive at their full maturity of vigor and power until some time after the 20th year (especially the brain). Is it not then preposterous to require of the youthful brain an amount of task-work which would be considered ample for an adult brain? Six and eight hours a day is the allotted school time in this part of the country. The school rooms are *badly warmed* and *worse ventilated*; the air in consequence is contaminated by the respiration of from 23 to 200 pairs of lungs. To accomplish *all* the tasks, the regular school hours are seldom sufficient, and more or less time must be given to study out of school, thus the mind is continuously swarming with verbs, fractions and triangles, and kept in the highest state of activity and effort. Some will answer that, 'their children follow this course and that *they* cannot perceive any impairment of their physical or mental health:' thus it may, hastily be inferred that hard study as required by our 'modern school system' is quite innocent of mischief. We might as well ignore the danger of cholera or diptheria, because the great majority of the community escape their attacks. Nevertheless the result of our 'modern school system' is certain: the manner in which the evil is manifested is not always discernable; it inevitably tends to disturb the mental energies and it lays many a foundation for an attack, in later years, of incurable insanity. I have daily brought before my attention examples of this in the institution of which I have the honor of being one of its physicians."

I have copied the remarks of Dr. L. entire, for their general bearing upon our schools, and especially, that attention may be called to any special cases of danger. If a system should be arranged to avoid such evils, time must be given for it; but if, in any school, a boy or girl is overtasked, it becomes the parent, the teacher and the director, to arrest the evil.

This article is too long to speak of that support which directors must give teachers, in the government of their schools.

The undersigned would inform the citizens of this county that he has formed a schedule of all the school lands which remain of the 16th and 36th sections, given by the law of Congress, Aug. 14, 1848, and also a schedule of all the lands selected in lieu of those parts of said sections, which claimants hold. This schedule has received the official approval of the Register of the United States Land Office. The school lands are properly noted on the county maps, made by Mr. C. W. Burrage, County Surveyor, which can be examined at the County Clerk's office.

OFFICIAL PAPER OF THE STATE.

No Flag but the Old Flag, the Red, White and Blue,

WEDNESDAY MORNING, MARCH 1, 1865.

National Rejoicing.

Our dispatches of yesterday contained a statement that citizens of New York were taking steps to celebrate, on the 4th of March, the great victories that the national forces were continually achieving, in a manner commensurate with their importance, and the citizens of the whole country are to be invited to join in such celebration upon that day. We would commend this matter to the consideration of all our citizens and suggest that the spirit that animates the people of New York may well be emulated and imitated upon this coast and in our State and city. It may not be possible for the people of Oregon to receive the idea emanating from New York in time to hold such a celebration upon the fourth instant, but each town and neighborhood can well afford to select some day upon which to lay aside the cares and business of life, and devote its hours to mutual assembling and rejoicing over the fact that our arms are so gloriously victorious everywhere, and that the cloud of war is now lifting from our land until the promise of peace, like a silver lining, gilds the shade that was lately so sombre.

This is no partisan thought, no sectional theme. It is the American Government that succeeds—the American flag that floats victorious. It is the "gorgeous ensign of the republic" that streams in all its old splendor, over every sea port and over many forts that were erected by rebel hands, and so lately frowned with threats of disunion, promising death to the soldiers of the Union.

Savannah, Charleston, Mobile, Wilmington—long believed to be almost impregnable—for long years held by our foes—have, in obedience to a people's determined will, been surrendered to our arms. Does anyone accept such surrenders as aught else than an indication that "the Federal armies must succeed? If any do, they must be strongly wedded to the rebel cause, and blind to the stern facts that war has elucidated. No, it is only because there was no hope of successfully defending them, that one by one the strongholds of the rebel cause have been abandoned; reluctantly enough the hostile armies have been withdrawn and Sumter would never have been given to us while a shadow of hope was left that it could successfully be held. All the pride of the Confederacy was wounded when it fell, and crushed to annihilation when floating in the center of Charleston Bay, triumphant at last, the old, war-worn emblem of the Nation's honor, that Anderson hauled down from its battlements as he left it, rose again—never dishonored since—upon its ruins.

There is much to rejoice over, much to feel thankful at, and sinking all party feeling and partisan animosity, it becomes us, as a people to celebrate these quickly following events, with the enthusiasm they should call out. If the President was correct when he declared that the majority even of the opposition were true to the Nation, it becomes those of whom he spoke, as well as [illegible] their hearts, and are cause for their rejoicings.

The verdict of history will vindicate the Government of the United States, and condemn the mad struggles of rebellion. We rejoice at these late successes because they presage peace and unity, and if that peace and unity can only be won by the subjugation of what were once sovereign States of the Nation, we will still rejoice over National triumphs, while we must lament the necessity of such subjugation. There can be no rest—no peace until rebellion is crushed out, and it is for the best good of the seceded States that, as soon as possible, they learn the madness of their struggle. It is a matter to grieve over, that such a state of things exist, but our cause is that of a Nation, and our victories are victories over threatened National ruin, and freedom triumphs in every success that we attain.

WALLA WALLA ITEMS.—We gather the following items from the Walla Walla *Statesman*:

The first Kootenai gold was worked at the San Francisco Mint on the 18th January, losing but 2½ per cent. in refining and proving. The gold is 895 fine.

A small party is making preparations to leave this city for Fisherville, Kootenai mines, on or before the first of next month. It will probably be difficult to make the trip as early as that on account of the scarcity of feed.

The first installment of Chinese miners—to the number of fifteen or twenty—arrived in town on Sunday, on their way to the Snake river and Oro Fino mines. They say that "heap more John come belly soon; no not know how much; but heap steamboat-bling 'em."

Persons from Wallula say the river is rapidly clearing from ice at that point.

Mr. E. Kimball, of Dry Creek, had his arm badly broken on Tuesday evening from being kicked by a horse.

There is promise of a very large amount of business for the packers and teamsters of the upper country, the coming season. The Columbia and Kootenai mines will most likely draw off the majority of the pack trains from the Boise road, so that the teamsters will not lack for plenty to do on that road.

Messrs. Benjamin Howard and Lew Day have been engaged this week in staking out the new road from Wallula to Rickely Station on Wild Horse Creek.

GEN. JOE JOHNSTON DECLARES HIMSELF OUT OF THE REBEL SERVICE.—The following is taken from the Columbia (S. C.) *Guardian* of the 19th January.

The Fifteenth South Carolina Volunteers, under Col. Lewis, *en route*, last night called on General Joseph E. Johnston and cheered the old hero most heartily.

He responded briefly, but very happily, congratulated them on their return to defend their native state, which he doubted not they would do as gallantly as they had done on the blood stained soil of Old Virginia; told them *he was out of service*; the field of discussion with him and them was much restricted; he could give no information, but he gave them his best wishes, and only *regretted that he could not serve with them*. His remarks were well received, and after a second cheering they left him.

Nevada, it is said, claims to have been the first State to ratify the amendment to the Constitution abolishing slavery. There were only two dissenting voices in both bodies, both Copperheads. Nevada illustrates the prophecy that the last "shall be first."

Expeditions against the Apaches in Arizona have succeeded in killing many, and inflicting considerable damage upon the tribe. Civilization is getting near enough to them to interfere with their devilish propensities.

The consumption of gunpowder by our squadron in service and for experimental practice, during the past year, required a supply of 1,525,000 pounds of powder and 575 tons of nitre, 300 tons of the latter being domestic and supplied entirely from the New Haven chemical works, the only establishment that has yet undertaken the manufacture for the navy.

On mustering, ninety-eight men were missing, among whom was the chief surgeon killed by the mainmast, one lieutenant and a [illegible] The commander was the last to leave the ship. The Admiral was on shore at the time of the fire. It was caused by the ignition of some rum, which was being transferred from a hogshead to a cask in the hold, through the carelessness of the man who held the candle.

A NOTED THIEF.—In Recorder's Court yesterday *Julius Lodaver* was arraigned, and pleading guilty to the charge of petit larceny was fined $5 and costs, in default of which he was committed to the County Jail, to remain there until his penalty is paid. He is a notorious thief, and only for a technicality would now be serving the State in that manner peculiar to the custody of the Superintendent Shaw. He is the dusky individual—being three quarter Indian—whom the Jury acquitted last week in Circuit Court, on a similar charge, in consequence of a flaw in the indictment. In less than twenty-four hours after his discharge, on that occasion he was putting on "style" in a suit of black cloth which he had stolen, and was arraigned to answer for. The dockets of the Recorder's Court show that he has appeared before Judge McCoy since September 1st, five times, on charges of theft, as follows: 1st, For stealing baggage from the Union Hotel; 2d, For stealing money from one of the shops; 3d, For stealing a pistol from Sutton's Gallery; 4th, For breaking into a house and stealing clothing; 5th, yesterday, For stealing clothing. It would seem that he was nothing more or less than a noted thief.

WHERE ARE THE PAPERS?—We failed to announce some two months since, quite to the dissatisfaction of a conceited ——— from San Francisco, that McG. was in this city canvassing for a San Francisco trashy paper, published "once a week." Our neglect in this matter did not win for Loakilitems any especial esteem by said McG., notwithstanding he *did* ask us to drink at Harris' one time—but we promptly refused. However, McG. was a lucky dog. He "marked" enough "paid" to foot up about $900 00 in "U. S. gold and silver coin," and left for the field of his labors farther north. Now, we are requested by a large number of those whom he "marked paid," and extracted $5 00 each from, to ask "Where are the papers?" We cannot tell them, and the only wisdom we are able to recommend in the premises is: that they accept of their experience with him to guide future action, and be content, with purchasing that experience for the money. It is cheap.

SMELT AND THE PELICANS.—Along with the school of Smelt now in the waters of the Columbia river, we have another rare visitor—the brown, or American Pelican. This bird has never been seen in this vicinity, excepting a stranger now and then. A specimen has lately been prepared by Dr. Cardwell, and is placed among the collection at Dalton's (late Buchtel & Cardwell's) Gallery on First street. The beak of this bird measures fourteen inches, and the wings ten feet from tip to tip. The Pelican is a great fisher, and a number of them will surround a school of fish and by beating the water with their wings drive the finny species together and making a dive scoop up and carry off in their immense pouches incredible quantities, to be devoured at leisure. It is said that a Pelican will thus carry off fish enough for a meal for sixty men. These birds have been kept, and trained to bring fish to their keeper, disgorging the same without injury.

FROM THE UPPER COLUMBIA.—M. Ainey, Esq., of Umatilla, paid us a visit last evening, coming through direct to Portland by steamers and railroad. The water of the Columbia is so low that boats cannot proceed above Umatilla. The new light draft steamer *Owyhee* had a hole knocked in her bottom while attempting the passage, and put about, reaching Celilo with men at the pumps, on Monday, where she will be repaired. A number of passengers, and express from Walla Walla and Lewiston, arrived by the same boat. The pioneer line of coaches, under the management of Messrs. Ish & Healy, leave Umatilla regularly every other day, for points above. The *Spray* and *Owyhee* will make regular trips to Umatilla, until a sufficient stage of water is in the river to carry boats to Wallula and Lewiston.

COMMERCIAL.—We learn by private telegrams from San Francisco, that the packets *Sam. Merritt* and *Almatia* arrived there on Monday, 18 days from Portland. The barkentine *W. H. Scranton* is now loading with grain at Couch's wharf, for San Francisco, and will sail on Friday. The *Alma* is discharging cargo. Two barks and a steamer, the *Industry*, Lewis, from San Francisco; the *Cambridge*, Brooks, from Honolulu; the *Wright*, Lewis, from Victoria, are now on the way to this port, laden with merchandise, sugars, salt, iron, etc. The steamship *Sierra Nevada*, Capt. Connor, is also on the way hither, having left San Francisco yesterday afternoon.

THE BUSINESS OF THE COLUMBIA.—The steamers of the O. S. N. Company, plying between this city and the Cascades, seem to have started the annual rush of passengers, stock and freight pretty lively for the season of 1865. For two days past the *Hunt* has carried full freight lists, and 300 passengers, besides 130 head of live stock; on the upward trip. Returning she has brought 145 passengers, and last evening about $16,000 in treasure to Wells, Fargo & Co. The *Julia* has made two trips with stock, carrying 290 head.

CIRCUIT COURT.—In Circuit Court yesterday the following business was transacted: Case of H. Scheland *vs.* Jos. Bergman *et al.*, suit on breach of covenant, submitted to jury, verdict of $390 damages. Case of W. S. Powell *vs.* the heirs of Lownsdale, decree for possession and quieting title to lot 4 in block 4. A number of motions were argued and orders of publication granted in various cases against absent defendants, when Court adjourned until this morning.

THEATRICALS FOR SALEM.—Our Salem friends will soon have an opportunity of witnessing some fine theatrical entertainments. The Irwins, Mrs. Getzler, George Pardey and others, are going up the Willamette on Thursday. The Irwins were very much appreciated here, having succeeded admirably owing to natural and attractive acting. Mrs. Getzler is what she always was, a great favorite, and Mr. Pardey has won an excellent reputation as a comedian. The balance of the company will correspond.

MAP OF IDAHO.—M. E. Traver has left at the sanctum of this establishment one of Bancroft's maps of Oregon, Washington and Idaho, mounted and embellished with the cards of some of our most prominent mercantile and business firms. Mr. Charles D. Snyder, at present of Sibert & Co.'s book bindery in this block, did the finishing of the maps, which attests an important fact for that character of work being done at home.

COASTING.—The youngsters of Portland struck a good thing yesterday at the O. S. N. Company's new wharf, finding enough snow for coasting purposes on the shaded side of a road way, and appeared to enjoy the amusement hugely. Such sports are rare indeed with us, and the boys did well to seek a shady place for the successful recreation.

POTATOES.—We have been presented with two kinds of potatoes, the *Neshannock* and *Blue* varieties, grown from seed of the former variety, received from the State of Indiana, by Mr. Cyrus Gleason, on Pudding river, Clackamas county. The products above mentioned ripened from seed the first season.

NEW COIN.—Two cent pieces of the United States coinage have been plenty for pocket pieces in this city of late. They come from the Philadelphia Mint, coined in 1864, bear upon one side to a scroll over the shield the words "In God we trust"; while the reverse is similar to the cents of the oldest coinage we can remember.

NEW YORK INTERESTED.—Eastern capitalists have lately invested heavily in quartz in the vicinity of Idaho City, and are now thoroughly developing them, under the able superintendence of ex-County Auditor, Wash. Underwood.

AUCTION SALES.—Mr. A. B. Richardson will dispose of a general assortment of groceries, etc., at the regular semi-weekly sale this morning, corner of Front and Oak streets.

COLD WEATHER.—A private letter from Placerville informs us that the thermometer ranged from 12° to 24° below zero at that place during the month of January.

OTHELLO.—This evening at Willamette Theatre the celebrated tragedy of "Othello" will be produced.

Dr. DeWolf's Lecture for to-night will be LOVE, COURTSHIP, MARRIAGE and DIVORCE. SCIENCE can teach us how to SELECT COMPANIONS, and how to AVOID DOMESTIC STRIFE. GO AND LEARN WISDOM.

Evening Free School.

PORTLAND, Feb. 25, 1865.

EDITOR OREGONIAN:—Dear Sir: It has been suggested by the writer that an evening free school, for the city of those boys and young men whose necessities forbid their attendance at the day school, would be a valuable addition to our educational facilities ... A Word to the Aged!
In the decline of life, the loss of vital force consequent upon physical decay can only be safely supplied by a mild reviving preparation which recruits the strength and spirits, without entailing the exhaustion which has always the final effect of ordinary stimulants. We tender to the aged

Cure Your Cold, Save Your Lungs,
NEWELL'S
PULMONARY SYRUP
HAS
CURED THOUSANDS!
And it will Cure You!
A Cough is generally the effect of a Cold, which has either been improperly treated or entirely neglected. When it proves obstinate there is
Always reason to fear the consequences,
as this shows a weak state of the lungs, and is often the forerunner of Consumption.—[Buchanan's Domestic Medicine.

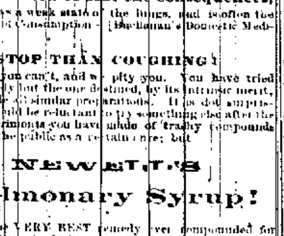

STOP THAT COUGHING!
Some of you can't, and we pity you. You have tried every remedy but the one destined, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S
Pulmonary Syrup!
Is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by its surprising curative powers.

WHAT KILLED HIM!
Dr. Hall, in his "Journal of Health," speaking of the death of Washington Irving, asks the above question, and adds, "He ought have remained with us for some years to come, had it not been for advice, kindly intended, no doubt, but given in thoughtlessness and recklessness, glance."

He Had a Cold!
Which, by some undue[?] prescription, had been converted into ..., "let me say to the ... that ... prescription" was not
NEWELL'S
PULMONARY
SYRUP.
KEEP IT IN THE HOUSE, use it freely, give it to your children upon the slightest indications of a Cold, and you will think and speak of it as all do who have become acquainted with its merits.

INCLUDING EVEN
CONSUMPTION.
There is scarcely one individual in the community who wholly escapes, during a season, from some one, however slightly developed, of the above symptoms—a neglect of which might lead to the last named, and most to be dreaded disease in the whole catalogue. The power of "medicinal gum" of the Wild Cherry Tree over this class of complaints is well known; so great is the good it has performed, and so great the popularity it has acquired.
In this preparation, besides the virtues of the Cherry, there are commingled with it other ingredients of like value, thus increasing its value ten fold, and forming a Remedy whose power to soothe, to heal, to relieve, and to cure disease, exists in no other medicine yet discovered.
The unequalled success that has attended the application of this medicine in all cases of
PULMONARY COMPLAINTS
has induced many physicians of high standing to employ it in their practice, some of whom advise us of the fact under their own signatures. We have space only for the names of a few of these:—
S. H. BINLEY, M. D., San Francisco, Cal.
E. BOYDEN, M. D., Exeter, Me.
ALEXANDER HATCH, M. D., China, Me.
R. FELLOWS, M. D., Hill, N. H.
W. H. WEBB, M. D., Cape Vincent, N. Y.
W. B. LYNCH, M. D., Auburn, N. Y.
ABRAHAM SKILLMAN, M. D., Boundbrook, N. J.
H. D. MARTIN, M. D., Mansfield, Pa.
The proprietors have letters from all classes of our fellow citizens, from the halls of Congress to the humblest cottage, and even from beyond the seas; for the fame and virtue of Wistar's Balsam have extended to the uttermost bounds of the earth, without any attempt on our part to introduce it beyond the limits of our own country.

TO CALIFORNIANS AND OREGONIANS.
After October 1, 1863, all genuine WISTAR'S BALSAM of WILD CHERRY for the Pacific Coast will be enclosed in a new wrapper which will bear the printed names of both SETH W. FOWLE & Co., Boston, Mass., and JOHN D. PARK, Cincinnati, Ohio, as well as facsimile of the signatures of "I. BUTTS," "SANFORD & PARK," and "H. WISTAR, M. D."
